

23-Bag Filter

6-Bag Filter

Duplex Filter

1-Bag Filter

Chemical Filter

500 lb. Carbon Filter

1000 lb. Carbon Filter

Bulk Carbon

Dewatering Box

## When Your Project Requires Temporary Filtration and Solids Separation

### FEATURES

- Portable and quickly moved
- Fast installation
- Easy to operate and maintain
- Continuous operation even during filter changes (some models)
- Easy-to-read pressure gauges
- Skid-mounted with forklift pockets
- NSF 61-listed (most models)
- Performance range: 10 gal. (37.85 l)/min. to 5000 gal. (18927.06 l)/min.
- Can be combined to achieve specific flow rates

### APPLICATIONS

- Construction site runoff water
- Environmental remediation
- Industrial process fluids
- Suspended solids removal
- Storm water runoff
- Process water for re-use: removes paint, metals, and sediment
- Sludge removal
- Hydrocarbon removal

## Options & Accessories

Filter Bags (Socks) for Bag Filters:

- .5-micron
- 1-micron
- 10-micron
- 25-micron
- 25-micron (Oil Bag)
- 50-micron
- 100-micron

Carbon Filter Unit:

- Virgin Activated Carbon
- Reactivated Carbon

Dewatering Box Liner:

- 50-micron
- 80-micron
- 130-micron
- 250-micron
- 400-micron
