

When Your Project Requires High Pressure Pumping

FEATURES

- Dry run capability (pump can run dry with no damage)
- Automatic self-priming
- Automatic level controls
- Large fuel tanks
- Abrasive handling mechanical seal
- Highest performing pumps in the rental market
- High pressure capabilities
- Variable speed

APPLICATIONS

- Water Transfer
- Jetting
- Landfills
- Quarries/Mining
- Environmental Cleanup
- Refineries/Process
- Construction Site Dewatering
- Tank Cleaning
- Fire Protection
- Pipeline Pigging

Why E-Pump?

COMPLETE MAINTENANCE—EVERY ITEM, EVERY TIME

At E-Pump we only use the very best equipment in our rental fleet. All of our pumps are factory tested to the industry's highest standards at some of the most modern pump manufacturing facilities in the world, and we uphold a rigorous inspection procedure and a thorough maintenance program to keep them running in top condition.

We are the only rental company that guarantees to outperform any competitor, pump size to pump size. In addition, we have one of the newest and largest pump rental fleets in the midwest region.
