

# SF-2P18D36T

## Filter Specifications

Flow Rate: 40-60gpm

Recommended Backflush Flow Rate: 15gpm

Max Pressure: Design 100psi, Operating 75psi

### Overall Filter Footprint:

- Height - 63"
- Width - 46"
- Length - 69"

Backflush Pipe Size: 2"

Influent/Effluent Pipe Size: 2" w/ 150# flange connection

### Manways:

- 8" Top & Side Manway

### Filter Material:

- Header Material - 304 Stainless Steel
- Body Material - 304 Stainless Steel
- Passivated Exterior Finish
- 2" Sch 80 PVC Internal Screen

Number of Tanks: 2

### Media Requirements (per vessel):

- 1/4" x 3/4" Gravel - 1.5 cu.ft.
- Silica Sand - 4 cu.ft.

### Weight:

- Filter - 750 lbs.
- Media - 1,100 lbs.
- Operation - 1,850 lbs.

### Electrical Requirements:

- Controller - 120V
